Welcome to my Portfolio

Hi, I'm Gabriela, a Junior FullStack Developer.

I am a PowerUp student and my goal is to develop my soft skills, English language skills and basic technical skills in the area of programming, which will allow me to be integrated into the advanced program.

Resume

In career transition, I am 29 years old and have lived in Portugal for 4 years, student of the Power Up course and at the same time studying about Software Quality.

With a Master's degree in Social Service, I had extensive experience in serving the public, from monitoring in the commercial area to institutional orientation.

During my professional career I have always been developing soft skills such as responsibility, teamwork, proactivity, active listening, empathy and critical thinking. I realize that the sum of these experiences contributed to acquiring skills that are essential in the day-to-day life of a technology professional.

Experience

Quality Assurance - At the moment

Lacrei Saúde | Volunteering

Build the strategy and mechanisms to adopt the methodology systematically, avoiding, identifying and treating problems. Work with defect prevention to improve what is done and how it is done, increasing satisfaction for all parties. One of the objectives is to improve quality using accessibility, functionality and usability testing.
